

Task Force on Vehicle Weights and Dimensions Policy

Government/Industry Meeting - November 27

Kim Durdle, P. Eng.

Director, Permitting and Approvals

Alberta Transportation

Alberta

New Organization Structure

- Director of Permitting and Approvals
- Key responsibilities include the management of Alberta's commercial vehicle weight and dimension program
- Continue to represent Alberta on the Task Force on Vehicle Weights and Dimensions Policy

New West Partnership

- New version of Alberta's Escort Vehicle Operator's Handbook soon to be available on the web for broad review
- Ongoing conversations to identify irritants/barriers where harmonization efforts could be focused.

National MOU on Weights and Dimensions

- Latest amendment to the MOU has not been signed
- Permits are available for 455 mm tires to operate on provincial highways at full weights with municipal approval required for travel on local roads

TRAVIS Update

- Implementation delayed
- Contents of RFP may change given changes to organizational structure and responsibilities

Red Tape Reduction

- Work is ongoing on review of regulation and processes to identify areas where efficiencies could be made
- Alberta continues to work with Saskatchewan to streamline regulations for service rigs
 - MOU has been signed between the two provinces
- Pilot program will be starting in January allowing for increased seasonal weights for all-terrain cranes
